The Call for Papers of 2014 Forbidden City International Pharmacist Forum

In lately medical reform environment, pharmacy profession, as an important part of medical team, are confronted with practical challenges such as shouldering new social responsibilities, identifying new positions, new work and improving working skills rapidly. We need to reflect, learning and progressing! We need an international exchange platform for expanding our horizon, exchanging our experience and further cooperating with others! That is what Forbidden City International Pharmacist Forum is pursuing: a platform that can reflect facing challenges of pharmacists, improve the development of pharmacist career and shoulder the social responsibilities!

We are very pleased to announce that during 16-18 May 2014, China Health Promotion Foundation will host “Forbidden City International Pharmacist Forum” public welfare activities in collaboration with many professional societies, institutes and experts. Our platform is dedicated to providing pharmacists in various areas within pharmacy an international platform for display, exchanging, learning and sharing. The theme of the 2014 Forum “Promoting rational drug use, you are power” will be based on pharmaceutical practice. Aiming at Expanding Chinese pharmacists horizon and cultivating young pharmacists as international talents, our forum has been successfully held five sessions from 2009 to 2013 and becomes an annual academic forum of pharmacists.

Insisting on the core theme --Practice hand in hand, our forum sincerely invites domestic and overseas pharmacists to take part in this platform to share and discuss successful experiences, failure lessons, confusions, inspirations and new methods by hosting 15 special sessions, including Pharmacy Administration, Chronic Disease Management and Rational Drug Use, Sentry Studies During Sales(Clinical Trial, Phase IV), Medical Insurance Policy, Pharmacists and Rational Drug Use, and 4 competitions, including Young Pharmacists Debate Competitions, Popular Science Star of Rational Drug Use Speech Competition and so on.

Welcome domestic and overseas pharmacists submit your papers. To take part in, to be the power!
